I am a Front-End Web Developer with two years of hands-on experience in crafting dynamic and user-friendly interfaces for web applications and pages. I am committed to continuously expanding my skills, not just in front-end development, but also in back-end technologies, including server management, APIs, and databases. This drive for growth is one of my core strengths, fueling my curiosity and commitment to learning. I take pride in delivering high-quality work while constantly seeking opportunities to enhance my expertise in all aspects of web development. Now, I am seeking opportunities to leverage my skills as a front-end developer, where I can create engaging and user-friendly web applications while contributing to innovative projects that align with my passion for clean design and efficient code.
